

Alpha Collection

Alpha Bench is extremely practical and made of lightweight GFRC concrete loosely based on letters of the alphabet. With eight letter shapes, this modular, backless seating is only limited by your imagination, available in two GFRC textures.

Well suited to courtyards and plazas, multi-family, civic, and campus locations, Alpha is designed for a seamless look with hidden mounting hardware. Stainless steel skate stops are available.

Alpha Benches

- Highly configurable, modular, contoured seating with eight letter shapes
- Available with matching integrated planters for green seating
- Lightweight GRFC concrete - durable for high exposure areas, lightweight for rooftop installations
- Optional stainless steel skate stops (skate deterrents) reduce markings.
