

Bolinas Collection

Bold, sculptural, monumental concrete planter forms inspired by the rugged coastline of Northern California with a nod to Brutalism.

Made in Glass Fiber Reinforced Concrete (GFRC), Bolinas planters are durable in all climates and lighter than standard concrete.

Substantial in size and scale, these freestanding round planters are a stylish solution, suitable for rooftops, courtyards, high-end residential, hospitality, etc.

Bolinas Collection

- Glass Fiber Reinforced Concrete (GFRC)
- Suitable for indoor or outdoor use
- Freestanding or anchored
- 19 sizes
