

# Florence Collection

Materials: **Lightweight GFRC Concrete**

The romance of the renaissance is created with a rounded scroll-top pot, and round accent in the lower portion, for an elegant style design. The lightweight GFRC concrete is durable enough for high traffic locations yet light enough to be moved. Florence Collection pots add a romantic style to either indoor or outdoor environments. Available in round, square, and rectangular shapes.

- Lightweight GFRC planters are designed to be durable despite low weight - even for heavy-traffic locations
- Coordinates with our industry-leading self-watering container irrigation products
- Applied finishes feature natural quartz and mica sands, and can be refinished and repaired on site as required
- Round, square, and rectangular sizes from 18" to 72", with customization available

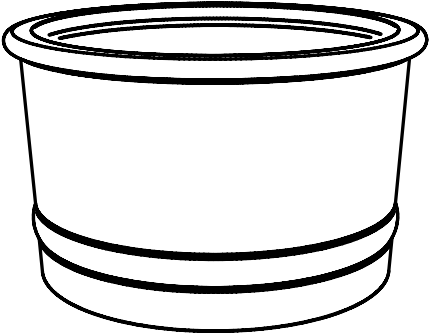

The Florence Collection includes a wide range of widths and heights, and is available in three configurations: round, square, and rectangular. Widths vary from 24" to 60" in squares and rectangles, with heights 18" to 42". In the round configuration, heights vary from 18" to 36".
